

For Anicha

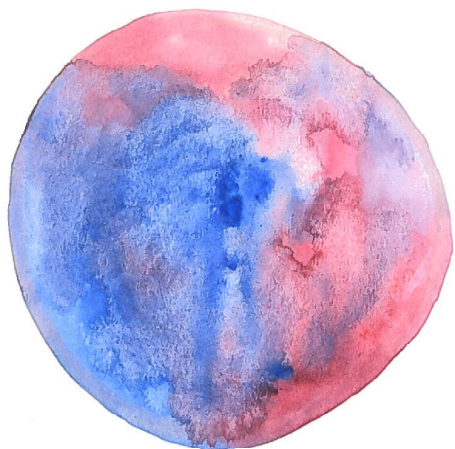

Roughly 4.6 billion years ago, World, as we know her, came to be.

She is unlike anything you had ever seen.

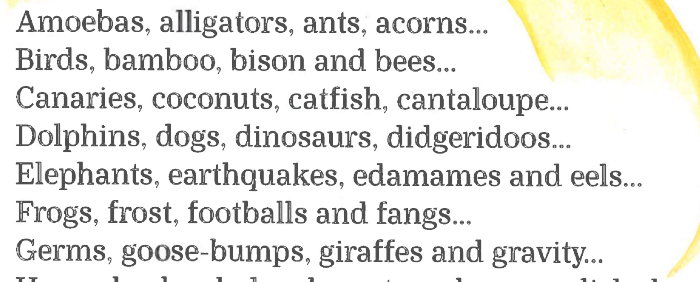

So diverse, so complex, so perfect is she.

Near a calming moon, and far enough from the  
heat of the sun, World lands an ideal spot.

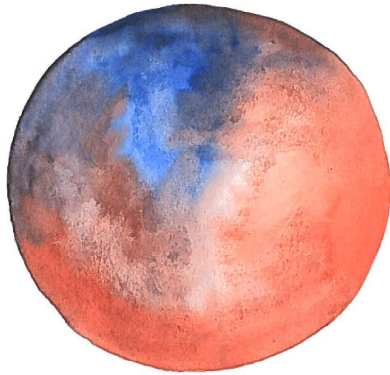

In time, everything from A to Z comes to live with  
World. To World there arrives...

Amoebas, alligators, ants, acorns...  
Birds, bamboo, bison and bees...  
Canaries, coconuts, catfish, cantaloupe...  
Dolphins, dogs, dinosaurs, didgeridoos...  
Elephants, earthquakes, edamames and eels...  
Frogs, frost, footballs and fangs...  
Germs, goose-bumps, giraffes and gravity...  
Hump-back whales, hamsters, horse-radish, human beings...  
Igloos, insects, incense, infinity...  
Jaguars, jumping beans, jelly beans and jam...  
Kangaroos, Kuala bears, kindness and kisses  
Longitude, language, light and love...  
Magnitude, marriage, mystery, maniacs...  
Numbers, nations, neurones and nerves...  
Oak trees, omelettes, oranges, oceans...  
Pine cones, pandas, paper and pencils...  
Queens, quartz, quantum and questions...  
Rain, rust, reindeer, rainbows...  
Sand, salt, sweets, symphonies...  
Typhoons, tigers, telephones and time...  
Underground, universities, upholstery, ukuleles...  
Vacations, vermin, veins, venison...  
Water, wonder, wind, and waste...  
X-ray, Xylophone, x-men, and xenos...  
Yatras, yeses, yucky and yummy things...  
Zoos, zoom, Zanzibar, and zeros ...

Life with World is not always easy. With marvel and mystery comes challenge and change. There are many lessons to be learned, and World is a great teacher.

World teaches us about the circle.

“Take from my bounty and leave what you cannot use. I will take your rests and return it to bounty.”

This bounty gives us strength.

This bounty helps us multiply.

This bounty feeds Thought...

Thought processes and gains momentum.

Little by little, Thought causes trouble.

Thought starts to believe it is bigger than World.
